

# Novi High School

is full of students always arriving on time and eager to learn. Behavior is always at its best and hallways remain silent. Organization and structure are what we do best.

HA.

## GOOD JOKE.

We are a mass of animated teenagers encouraged to sit still and stare at a white board. Our halls scream spirit with our flyers, showcases... and voices. We are wildcats in the locker rooms and Einsteins in the classrooms. We are serious and silly, involved and unknown, sociable and shy. All 2000 of us create layers of the talented and competitive, the spirited and the involved. Are we always on time and ready? Not quite. But we are hard working and always up for a good time.
