Tyler Harsch is ranked number **2** in the GMC.

Q & A

with

Nick Stuckert

Lakota East Varsity Tennis Player

interview **claire middleton** | photo **brian fogel**

When did you start playing tennis?

I started playing tennis in 8th grade.

Why did you start playing tennis?

Several of my friends were on the team. I immediately fell in love with the game and have been playing ever since.

How is tennis both an individual sport and a team sport?

Tennis is an individual sport simply because you are responsible if you win or lose but at the same time it is a team sport because you must win three of the five courts to win the match.

What do you do to prepare for a match?

To prepare for a match I arrive at the field house and have a small snack. I then sit for about five minutes, and usually listen to music. After that I go out to the courts and hit a little bit. Then as a team we do one lap around the courts and then dynamic stretching.

What do you like the most about tennis?

I like tennis because you can play it all year. You can practice by yourself. You can play for almost your entire life. It can be team work or individual since we have doubles and singles. It's just fun to play with your friends.

How has the experience of playing on the team impacted you as a person?

I've become a better leader and better at teamwork. I've learned a lot about self discipline.

What will you remember the most about this season?

The one thing I will remember most has got

to be the wind. A few times it was so windy I could not swing as hard as I could and just barely got it over the net. From the other side, I would just barely tap it and it would blow over

What are your future plans for tennis?

In the future I would like to continue playing tennis recreationally through college and for the rest of my life.

Hello my name is claire, hello my name is claire? Hello my name is claire hello?

BY THE NUMBERS

0:12.03

Autumn Heath's time running the 100 meters.

191

The number of kills Kalen White has this season.

2

Tyler Harsch's rank in the GMC.

4:30:5

Matt Rice's time in the 1600 meters.

72

The number of points scored by the boys' basketball team in the first game.

31

The number of wrestling matches Austin Daly won this season.

9.1

The number of rebounds Alex White has per game.

0:12.03

Autumn Heath's time running 100 meters.

191

The number of kills Kalen White has this season.

Q & A

with

Nick Stuckert

Lakota East Varsity Tennis Player

interview **claire middleton** | photo **brian fogel**

When did you start playing tennis?

I started playing tennis in 8th grade.

Why did you start playing tennis?

Several of my friends were on the team. I immediately fell in love with the game and have been playing ever since.

How is tennis both an individual sport and a team sport?

Tennis is an individual sport simply because you are responsible if you win or lose but at the same time it is a team sport because you must win three of the five courts to win the match.

What do you do to prepare for a match?

To prepare for a match I arrive at the field house and have a small snack. I then sit for about five minutes, and usually listen to music. After that I go out to the courts and hit a little bit. Then as a team we do one lap around the courts and then dynamic stretching.

What do you like the most about tennis?

I like tennis because you can play it all year. You can practice by yourself. You can play for almost your entire life. It can be team work or individual since we have doubles and singles. It's just fun to play with your friends.

How has the experience of playing on the team impacted you as a person?

I've become a better leader and better at teamwork. I've learned a lot about self discipline.

What will you remember the most about this season?

The one thing I will remember most has got to be the wind. A few times it was so windy

I could not swing as hard as I could and just barely got it over the net. From the other side, I would just barely tap it and it would blow over

What are your future plans for tennis?

In the future I would like to continue playing tennis recreationally through college and for the rest of my life.
